

# CUBIC

# CUBIC

## about cubic

Cubic offers a clean, smooth look ideal for use in the retail, office or leisure interior.

Cast joints facilitate the connection of stainless steel sections to produce a wide variety of display units and furniture.

All components are finished to compliment the satin polished stainless steel box-section.

Special items and sizes on request

## assembly details

### step 1

Wedge assembly is placed inside the box section.

### step 2

Wedge assembly is tightened with a 5mm allen key bolt.

### step 3

Wedge assembly is placed into joints and clamped with grub screw using 2.5mm Allen key.
